I object to the project ☒

I'm providing comments ☐

I support the project ☐

Your Comments

I object to the project because of the lack of transparency around how much lead will be mined. This poses a significant and immediate risk to the community, particularly in terms of stunting the healthy development of young children. The harsh legacy of this mine in the shape and form of pollution should be deeply considered and avoided to ensure natural resources and spaces are respected and preserved for future generations.
