Your Comments

I've been coming with my family to live for my childhood years and the people + the community have always been amazing.

From my understanding he doesn't have enough water as it is so to put in a mine with lots of harsh chemicals and use the town water doesn't make sense.

My mum drinks water from the ground in Mudgee and if he which is very close to Mudgee ends up contaminating the aquifer, that or water it would kill the wine industry in the area.
