

Director, Social and Infrastructure Assessments

Planning and Assessment

Department of Planning and Environment

Locked Bag 5022      Parramatta      NSW      2124

Attention: Nahid Mahmud

July, 2022

**Application Number:** SSD-30759158 - Minarah College

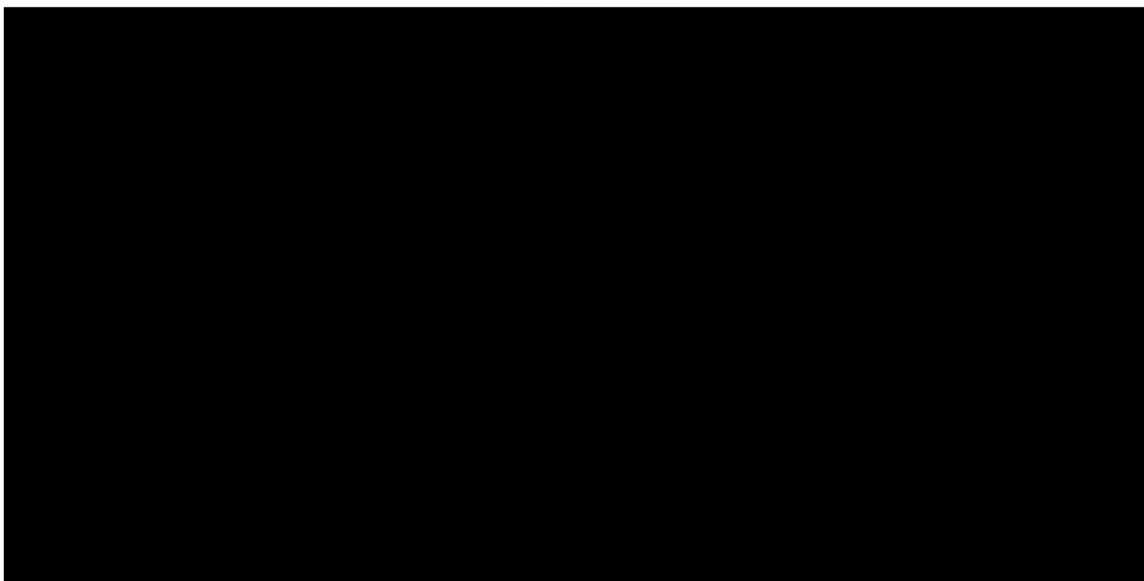

I request that my private information (name and address) withheld.

*Yes*

I declare that I have / have not made any reportable political donations.

I would like to OPPOSE the proposed Minarah College

Sincerely

To: Planning Secretary

I am writing to oppose Minarah College as I don't believe that the State Significant Guidelines 1.4 Supporting Materials have been met.

"requiring an EIS for SSD projects to include a declaration in respect of completeness, accuracy, quality and clarity of the information in the EIS before it is submitted to the Department"

Ason Group provided a document that is not accurate or current given that the report contained traffic data that was conducted during Covid, as well as there being no recent crash history, the crash data provided was dated from 2015- 2019. There is no recent crash history which should be reflected due to the corresponding growth rates since 2019. There is 2.5 years of missing data that would be valuable.

I did not see the source of the predictive models and whether it was reflective of rural roads

The Noise and Vibration Plan is incomplete. The Measured Ambient Noise Level is not accurate with the report clearly stating that the noise logger at location A was only present for only 8 days out of the 25 days. Some of the dates that these noise loggers were installed also include when New South Wales was experiencing covid lockdown. Therefore, there were less people moving about and less cars/ vehicles using the road = less noise.

Given that the data provided in these reports seem incomplete, inaccurate and out of date, I do not support this proposal

I have not made any reportable political donations
