Upon reviewing Martens Drawing No. PS01-E100 revision B, I strongly oppose this project.

The fact that the proposed installation of two new stormwater drainage pipes will be installed under Catherine Fields road will most certainly increase the flooding of neighbours at 277 Catherine Fields road and 285 Catherine Fields road which already are impacted during times of heavy rain.

I see no evidence of communication with Camden Council, considering they have ownership of Catherine Fields road, for approval of these works to be carried out.

I see no evidence of communication with these residents in the planning documents or plans to seek further consultation to remediate this concern.

I would suggest that Martens conduct a thorough walkover of the properties during heavy rainfall and examine for themselves that amount of water that flows from the overland flow of 268 Catherine Fields road and re-submit an accurate report.

This directly does not meet the requirements of SEARs 13 and 14.
