

To Nahid Mahmud,

With regards to the alleged new project proposal for a new school (Minarah College) on Catherine Field Rd, Catherine Filed.

We totally oppose, Reasons below.

We visit our grandparents & uncle regularly, we always enjoy spending time on the acreage & love the freedom of country life, it's a peaceful rural area, we play with our animals & bikes we come visit & we look forward to it so much.

Catherine Fields is a peaceful rural environment, WE love visiting as we dislike the heavy traffic, The increased traffic will change all this & will potentially cause more accidents, the proposed project will not FIT the rural area that it is.

The area is NOT ZONED as residential housing development. The area is zoned as RURAL. It will increase traffic congestion, add potential for increased road accidents.

Due to no proper infrastructure, the proposed school is NOT welcomed, it would NOT blend into the Catherine field Rural area. It is simply not the right location for a school to be constructed. Catherine Field must remain Rural.

Kind Regards

Deanna, Chantelle & Bianca Galea
