**Subject:** Objection to MP09\_0175-Mod-10 Hunter Quarries and "claiming submitters rights"

TO: Director, Resource Assessments, Development Assessment  
Department of Planning and Environment,  
Locked Bag 5022  
Parramatta NSW 2124  
C/- James McDonough,

Dear Sir/Madam, (C/- James McDonough - Major Projects Department)

**RE: Four (4) Objectors to MP09\_0175-Mod-10 Karuah East Quarry/Hunter Quarries and also "claiming submitters rights"**

ICAG Inc. is lodging 4 separate objections to the DPIE, listed below on behalf of individuals and Groups who **object** to MP09\_0175-Mod-10 Karuah East Quarry/Hunter Quarries and are also "claiming submitters rights".

- 1) Stephen Albury
- 2) Wallaburra Wildlife Reserve
- 3) Keith W, Wynne
- 4) Rivers SOS Regional Representatives

The proposed project of Hunter Quarries MP09\_0175-Mod-10, must not be approved at all, or by any Government Departments or Ministers.

Hunter Quarries have already cleared so many properties of vegetation, with no regard to the ownership of these properties, this should not be an automatic approval of more pits and continued bushland clearance, which directly impacts all wildlife species including Koalas, Quolls, Phascagales on these properties, trying to survive around quarry operations that already exist.

Therefore the remaining properties/bush areas must be without any further impacts, or any further modifications and must remain for wildlife "offset in Perpetuity".

Yours faithfully  
C/- ICAG Inc. Secretary
