Comments:

.....
All of this so called EXPERT advise is not properly looked into.

The rate of new technology is too fast for your so called EXPERTS

Who is going to repair all the damage that will be done when this is out of date which will most likely be in about 2 years

This is going to go out like the Dodo and a hell of a mess to repair

Sound effects for all of us elderly people is unbelievable as we have been ~~meat~~ other so called advanced technology which is rapidly going out.
