I OBJECT to the ~~modification~~ of the Birriwa Solar Farm for the following reasons:

I am concerned about the EMISSIONS as your documentation fails to give details of the 'emissions' generated over the whole-of-life of the development. This includes the manufacturing of the components and transport to site.

What happens in the future for disposal of all solar panels and whose responsibility will it be?

I think The most beneficial party will be China who are producing these panels!

We are also concerned with The Tourism from cyclists and feel this will be detrimental to our catering business for them.
