Subject: Objection to Veolia Incinerator at Woodlawn, Tarago
Date: Sunday, 4 December 2022 12:17:53 AM

My name is Geoffrey Grey, and I live at 625 Lucky Pass Rd, Currawang NSW 2580.

I strongly object to the proposal for Veolia to build an incinerator at their Woodlawn facility near Tarago, as per the proposal: Woodlawn ARC: SSD-21184278.

The proposed site is under 20 kms from our property, where we run farmstay holiday accommodation known as Greysen Estate Artists' Retreat. That accommodation venture promotes the tranquility and rural amenity of the district, and is keeping with the planning approvals for our rural home.

On numerous occasions over the past 12 months the smell from the site has been awful, and certainly already impacts on our ability to advertise the accommodation faithfully. Were the incinerator proposal approved to any number of days per week, let alone everyday of the year, our income would be impacted significantly, if not totally.

Furthermore, as a result of injuries sustained in my long Australian Defence Force (ADF) career, my daily employment and research is from my home office. My work, for the ADF, directly assists wounded, injured and ill ADF personnel in their recoveries from a wide variety of issues. It is an abominable proposition that the NSW Government would consider jeopardising that by approving Veolia's abundant smell, ash and toxins polluting my work environment for the next 30 years.

Donations Declaration

I declare no political donations have been made by me in the past two years.

NSW Planning Department Disclaimer and Declaration

I acknowledge and accept the NSW Planning Department's Disclaimer.
