To whom it may concern,

I am Richard Maas

124 Glenoval road

Lake Bathurst nsw 2580

I am lodging an objection to the proposed incinerator at Tarago.

I Accept the departments disclaimer and declaration.

As a large scale farmer and land owner at Lake Bathurst I strongly object to this incinerator being built

in a rural setting.

If this incinerator was deemed unsafe for a city why would it be safe for farmland and residents.

Violia has breeched the enviromental guidelines they already have so how can we trust them to run this operation without mishaps and accidents.

We are already having to put up with the constant stink from the current operation in which we were told that there would be no smell at all!

I believe this incinerator would be far better located in sydney which would save having to transport all the material all the way out here, why should we have to deal with rubbish from the cities.

Richard Maas.
