**Subject:** Woodlawn ARC: SSD-21184278 - Objection  
**Date:** Sunday, 4 December 2022 7:56:11 PM

---

[REDACTED] currently residing at [REDACTED], writing on behalf of my parents living at, [REDACTED]. Writing an objection to the project - **Woodlawn ARC: SSD-21184278**.

I declare that I have no reportable political donations in the last two years.

I acknowledge and accept the Departments disclaimer and declaration.

Please maintain my privacy from the publication of this statement.

My statement:

I am writing this objection on behalf of my parents and myself. I strongly object to Veolia's proposed incinerator being built in Tarago. Veolia's toxic industrial waste incinerator has caused my parents great distress over the last few months, and it has only just gotten worse. The current situation is bad enough. Now the new proposal will just heighten the issues already in the area.

I believe that this proposed incinerator, if it was to go through, would cause further issues in the area that was once a very nice place to live.

These issues would include being:

- Toxic to our food, water and air. There is a large amount of water tanks and natural water that supplies the properties throughout Tarago.
  - These toxins have been known to cause cancer, miscarriage, infant deaths, developmental delays, reproductive issues, heart disease and respiratory impairment.
- Significant detrimental negative impact to mental health by increasing anxiety and depression. I have already had experiences with my parents and the neighbour. No one needs this, especially when my parents are of retirement age.
- Waste incineration is not recycling - this is clearly a pollution proposition and a situation of our environment being traded for money.
  - I thought we were all about climate change and protecting our existence, this proposition is in direct conflict.
- This proposition will not help the development and growth of the local area. It will likely drive the current population away - if they can afford to move out of the area.
- The biggest one, the recent proposal of the Eastern Creek incinerator was declined for safety reasons. Why is an incinerator not safe for Sydney but okay for our area.

I do hope that this proposition is denied and our environment, mental health, and those living in our community remain safe.
