To whom it may concern

Please be advised that I object to the application.

The reason why I object to the application is my significant concern for the long-term health and safety of the students of the newly constructed Bungendore Highschool. Noting that Bungendore is in the downwind impact zone of the Tarago Incinerator, it is impossible to know what impact hundreds of thousands of tonnes of burnt waste products will have on the students bodies – particularly noting that they are still developing.

I have made no reportable political donations in the last two years, and I acknowledge and accept the Departments disclaimer and declaration.

Regards

Shane
