

My name is Vicki van Beers and I am a rate payer in the town of Casino in the Northern Rivers of NSW. My address is 58 Colches St Casino.

With regard to the project Woodlawn ARC application number: SSD-21184278 I state that I strenuously object to this project on health grounds. I believe the incinerator at the centre of the project will be harmful to the atmosphere and air quality in the area and therefore detrimental to the health of my family and the community of Casino. Furthermore I believe it will negatively impact on the surrounding properties and the town as a whole with regard to desirability to reside and property values.

I have never made a political donation and I am not affiliated with any political party.

I submit this email as a. Official objection for your information.

Vicki van Beers
