Subject: Objection to Veolia incinerator in Tarago
Date: Wednesday, 7 December 2022 8:48:56 PM

My name is Suzanne McDonald and I live on 225 acres on King Street Tarago.

I strongly object to Veolia's proposed incinerator being built in Tarago.

Veolia's incinerator will adversely impact a growing village and urban community both actually and perceived. Impacting the health and wellbeing, property values and commercial growth of the community.

The certain negative impacts are obvious :

- contamination of the air, earth and water, contribution to climate change
- loss of agricultural production
- loss of community/commercial growth impacting local sustainable employment
- generational mental and physical health impacts

I have lived and worked in this community for more than 20 years and raised 2 children here, and built a home and small farm. Should it be decided that this incinerator will be built, I will be devastated because I will need to abandon my plans to live out my days in my cherished home and community and leave this place.

Regards,

S. McDonald
