Project Name: Woodlawn ARC

Application Number: SSD-21184278

I OBJECT to the proposed incinerator

Reasons: I live near Tarago and am in Tarago most days of the year. We have to put up with smelly trains, and we do not want the rubbish to be burned. We try to grow vegetables in Tarago itself, and have eggs from chickens. I wish everything was recyclable, and there was no need for burning the rubbish.

Reportable Political Donations: NONE
