Project – Woodlawn ARC : SSD-21184278

I, Katie Keatley object to the above application.

I live with my young family 10km from the proposed incinerator and have many fears about the project. I own a grazing enterprise, consume my own produce and drink my own harvested water. I'm very worried about the potential health implications and the threat to my livelihood should any toxins enter our environment.

Even though the company says there are no risks our community has a history of being told lies by big business in order to get what they want. Like the waste facility wont smell, you won't hear the wind turbines etc.

I have not made any reportable political donations in the last two years.

I acknowledge and accept the departments disclaimer and declaration.

Kind Regards  
Katie Keatley
