

Dear Sir/Madam,

I feel really angry about this project and wish to object to the proposed Tarago Incinerator (Woodlawn ARC: SSD-21184278) in the strongest possible terms.

The proposed incinerator is a careless clumsy and completely unacceptable project to be placing in a clean rural area responsible for food production, a wonderful natural environment and residential living.

The proposed incinerator would directly affect the ACT and Canberra, and a significant number of rural locations including Collector, Braidwood, Bungendore, Tarago, Goulburn to name a few.

Food production in the area will undoubtedly be contaminated.

A completely unacceptable proposal.

Do not bring Sydney's rubbish to the Southern Highlands and contaminate what is a clean rural residential setting.

If it is so clean let Sydney deal with their own waste in their own backyard.

We are not Sydney's tip.

Andrew Chiswell

606 Lucky Pass Rd Currawang NSW 2580

I have no reportable donations to declare.

I acknowledge and accept the Departments disclaimer and declaration and I vote.

Yours Sincerely,

Andrew Chiswell
