140 Headlam Road, Moss Vale, NSW, 2577

Woodlawn ARC: SSD-21184278

I would like to object to the above development

application. As a farmer who often agists cattle in the Tarago, Lake Bathurst area I am very conscious of bio security and contamination which are big issues in our industry which I think would be compromised by such a development. I am

being audited in the new year and will be raising my concerns with the auditor from the Ausmeat compliance office. I'm sure I'm not the only primary producer

with these concerns. I will write again in the New year after I have had more discussions and am more informed about these issues.

Surely there is a better way to deal with Sydney's rubbish as opposed to putting it in an area of prime agricultural land?

I have not made a reportable political donation.

I acknowledge and accept the departments disclaimer and declaration.

Concerned Farmer
