

My name is Kim Tickner, and I live at [13 King Albert Ave Tanilba Bay](#). My daughter and 4-year-old granddaughter live in Collector, NSW, just 20km from the proposed Tarago Incinerator. I strongly object to Veolia's proposed incinerator being built in Tarago.

I am deeply concerned about the impact on my family's health if this incinerator was allowed to go ahead. This will impact not only my daughter's and grandchild's health and well-being but also generations to come. This will be due to the accumulation of forever chemicals in their bodies, from exposure to Veolia's waste to energy incinerators' toxic emissions settling in their immediate environment. My daughter's family relies on tank water with no option for town water. How can the NSW Government, in good conscience, even consider this proposal based on that fact alone? It's an intergenerational burden and legacy that cannot go ahead. If it's not safe for the people of Sydney, it is NOT SAFE FOR ANYONE.

I, Kim Tickner, have not made any reportable political donations in the last two years.

I, Kim Tickner, acknowledge and accept the Department's disclaimer and declaration.

Sincerely

Kim Tickner
