

My name is Rachel Muscarella and I live in Collector NSW.

I STRONGLY object to Veolias proposed incinerator being built at Tarago NSW.

I have many reasons....here are a few:

Not Safe for Sydney, not safe anywhere.

The government acknowledges that its own energy from waste infrastructure plan can impact on human health.

No other place wants it after investigation into its safety for humans, animals and agriculture.

Decrease in property values as nobody will choose to live here.

I have made no political donations.

I acknowledge and accept department disclaimer and declaration.

Yours Sincerely,
Rachel Muscarella
