My name is Jodie O'Brien, and I live at 63 Maclachlan St, Holder ACT 2611. My friend, who lives in Collector, NSW alerted me to a proposed waste-to-energy incinerator near Lake George. I object entirely to Veolia's proposed incinerator being built in Tarago.

I was furious to hear that the NSW Government was considering installing a waste-to-energy incinerator on Canberra's border after banning them from Sydney due to their unacceptable impact on human health. Canberra has also banned waste-energy-incinerators for the same reason.

The devastating black summer bushfires demonstrate how far fine toxic particles can travel; Veolia's proposed waste incinerator's toxic cancer-causing emissions will not stop at the border of Canberra.

Canberra has also recently passed a bill for the right to a clean environment. Nothing is clean about the emissions from burning millions of tonnes of Sydney's waste for 25 years. I urge the NSW Government to respect this and ban waste-to-energy incinerators in NSW.

I, Jodie O'Brien, have not made any reportable political donations in the last two years.  
I, Jodie O'Brien, acknowledge and accept the Department's disclaimer and declaration.

Kind regards,

Jodie O'Brien
