

I wish to OBJECT to the above application

Tarago Has became my families home for over 13 years now, a place I chose to build a family home and raise my family, and sense moving here we have being nothing but bombarded with constant risks, effecting the lively hood of my growing family

I wish to OBJECT to the proposed incinerator that you pose to build on my door step, my family is already exposed to the daily effects and running of Veolia and their choices continue to effect our daily lives. With no interest in the communities safety and wellbeing.

With no certainty that the air we breath, the water we drink and the food we eat will not be effected, with no certainty of long term effects on exposure I CANNOT support this happening in the town I have chosen to build my family home and raise my family.

Peoples health and safety Must be a priority ! Tarago Community must be a priority ! Our children's future and the lively hood of the Tarago village must be a priority not the removal of Sydney's Waste

I have not made a reportable political donation.

I acknowledge and accept the Department's disclaimer and declaration.
