

To whom it may concern,

I Emily Clark who lives at 9 King Street, Tarago, NSW 2580 strongly object to the Woodlawn ARC: SSD-21184278 being built. I have lived in Tarago all my life and can recall the odor of Woodlawn as a child. My family has lived here for generations in this small village and I do not want that disrupted by the environmental hazard that this project could pose. I also work on a Beef Cattle farm - I am very worried about how this will affect our stock's health and we will not be able to claim any guarantees to exposure of the vapors produced from this project. I have not made a reportable political donation, ever. I also acknowledge and accept the Department's disclaimer and declaration.
