

Good evening,

We are writing to object to the application of the proposed Waste Incinerator at the Veolia Woodlawn waste disposal centre.

We are residents of Mount Fairy, NSW (address: 115 Steepers Lane, Mount Fairy, NSW) that sits within 15 kilometres of the Woodlawn facility, and we own an additional block (address: 171 Willandra Lane, Tarago NSW) that sits within 10 kilometres of it.

We moved to the Mount Fairy area almost ten years ago and are passionate about regenerative agriculture, and are constantly researching and implementing ways to enhance the landscape we are the current custodians of.

We are doing this by;

- implementing strategic grazing management practices
- maintaining ground cover
- fencing to exclude stock from riparian areas.
- sequestering carbon
- planting native trees and shrubs
- increasing biodiversity
- reducing chemical inputs, and;
- working to restore the landscape's natural function.

We are concerned that the proposed waste incinerator would negatively impact the local environment, and un-do so much of the good work we have done to restore environmental outcomes. As well as improve the Sydney Water catchment that we are a part of.

Furthermore, we are extremely concerned about the long-lasting impact that the toxins from the incinerator will have on our health and the health of our children.

Please help us in stop this outdated and hazardous form of waste disposal from being approved. For our sake. For the sake of our children. And the sake of the environment.

Sincerely,

Felicity and Ben Lynch

115 Steepers Lane, Mount Fairy, NSW
