

Good evening,

Myself and my husband, Tim Beck live in Goulburn at 17500 Hume highway and we strongly object to the proposed incinerator at Tarago.

Veolia's waste incinerator will emit toxic air pollution 24 hours a day, negatively impacting the communities health.

The proposed site is also in Sydney's water catchment, with toxic runoff having the potential to impact millions of people.

Sydney's waste should not become this regions problem. It is not practical to cart Sydney's rubbish 200km to burn it. A circular economy is the way to go, and this proposal does not solve our waste issue in Australia.

I have not made any reportable political donations in the last 2 years. I acknowledge the departments disclaimer and declaration.

Kind Regards,

Camilla and Tim Beck
