

I Pauline Croker live at 9 King Street Tarago NSW 2580 I have lived here all my life (62 years) and my parents & their grandparents lived here. I have a long association with this town, that is **why I strongly object to Veolia's proposed incinerator being built near Tarago**. I have chosen to live here because I have a lot of history here & enjoy the clean air & tranquillity of a small town. I feel that having an incinerator here will affect my health and well-being and of my family.

I grow my own vegetables and have tanks that collect rainwater for drinking off my roof. I am very concerned that there will be toxic particles that will float in the air & settle on our roof and in our soil.

I have a beef cattle farm which I sell our cattle to the local market, I am worried about soil contamination and the health of our livestock.

I am concerned about how the incinerator will impact on our health, property values and the environment so please put it in Sydney where the waste comes from, why should you poison us

I have not made any political donations to any party whatsoever.

I acknowledge and accept the Departments disclaimer and declaration

Regards  
Pauline Croker
