

I, Patricia Forrest, of 526 Mount Fairy Road, Mount Fairy 2580, object to the proposed waste incinerator at Woodlawn (Woodlawn ARC:SSD-21184278)

The reasons for my objection include;

- the environmental impact on the surrounding area
- the health impacts caused by consuming water and food polluted by toxic ash from the incinerator
- the economic impacts caused by issues related to loss of farming income, loss of tourism, and loss of real estate value
- Veolia has not managed the existing landfill responsibly, and have received numerous fines and warnings related to this. They have not committed to, and will not, responsibly manage a waste incinerator.

I acknowledge and accept the planning department's disclaimer and declaration.

Regards,  
Patricia Forrest
