

## Submission on Woodlawn Advanced Energy Recovery Centre SSD-21184278

Thank you for the opportunity to make a submission opposing the Woodlawn Advanced Energy Recovery Centre, an incinerator approximately 6km from Tarago and 40km by crow from the northern suburbs of Canberra.

This is an incinerator using the same technology that has been banned in most other places in NSW, banned in the ACT and in many countries around the world because it pollutes the air and threatens human health.

Sydney doesn't want an incinerator in their backyard for good reason. And it is not OK to put it in Tarago and the ACT's backyard either.

This proposal is an affront to human rights and another nail in the climate change coffin.

Please refuse this proposal for the sake of current and future generations.
