Tick applicable box

My submission is as follows:

The proposed project will be an added benefit to the area and local community for many reasons, namely:

- Increased employment opportunities for a range of sections, both during and after construction.
- It will increase the value of the area and will create more attractions and interest to the area.
- From an architectural and development stand, this development will add hugely to the public infrastructure and usage of the area, also allowing for a wide range of open public accessibility on land and water for all boat users too. . . will be a huge attraction and a good precedent.
