Tick applicable box

My submission is as follows:

Although there is approval for a
prior DA i believe the new proposed DA
is kinder to the eye and will have less of an
impact on the environment being fewer buildings
I have already attended the restaurant on
a few occasions and found it to be very
professionally managed.

There are many benefits for the community /
region this development will create including
* recreation, sport and leisure
* employment
* economic benefits to other businesses and
the environmentally friendly Solar to generate
electricity would be great to see
