

I whole heartedly support the Winterbourne Wind Farm.(proposal ID SSD-10471)

The planet is humanity's common home. Walcha is a part of Australia and the whole world. Walcha can take a leading role for Australia and the world by expressing an individual responsibility. This support of humanity is helped by supporting the Winterbourne Wind Farm in each of these ways:-

- * Reducing our output of greenhouse gases as wind turbines use naturally occurring atmospheric pressure differences.
- * Walcha being adjacent to the Escarpment has natural advantages for the availability of reliable and available energy.
- * Being set in a rural area adjacent to natural park/forestry visual impact is minimal to the wider community.
- * This project enables Walcha to be a major exporter of Energy to areas of our state/country that do not have our advantages.
- * Electrical Energy - has become essential to our modern way of life, including: communications; food preservation & cooking; transportation - trains & road transport; the essential energy basis of all business.
- * Showing our common heritage with the rest of the world in solidarity with reducing climate change.

Full Name: William John HEAZLETT

Address: 14141 Thunderbolt's Way

Walcha, NSW. 2354
