I OBJECT to the Winterbourne Wind Farm development.

The reason for my position stated above is the following;

1. The visual impact and the noise of the turbines
2. The construction of turbines on prime agricultural land
3. The unknown longer term health impacts on the people living close to the turbines and the community in general
4. The unknown longer term impacts on the wildlife and farm animals
5. The loss of the rural beauty, with the national park being close by
6. The loss of trees and the environmental impact during construction.
7. The increase in traffic on our roads during construction.

Kind regards,
Michael Sweeney
