SSD No 10471 - Winterbourne Wind Farm Walcha

Tim Rogers

26/11/2022

Dear Iwan

I OBJECT to the Winterbourne Wind Farm for the following reasons

1. Inappropriate development of high quality agricultural land to an industrial landscape.
2. Divisive of a strong vibrant community into a very small minority of hosts against the overwhelming majority of the community non hosts who are against the wind factories.
3. The extraordinary disruption to the communities during construction with traffic movements.
4. The damage to existing infrastructure due to heavy truck movements.
5. The inherent inefficiencies' and vagaries of wind turbines.
6. The destruction of the environment due to road access and sites.
7. The temporary strain and pricing on residential accommodation that will force locals out during construction. Note Miles in Qld. that is now a ghost town since completion of a gas project.
8. No guarantee of decommissioning costs.

Yours Faithfully
