I OBJECT to the Winterbourne Wind Farm development.

- I declare that I have not made any reportable political donations in the previous two years
- I acknowledge and accept the Department's disclaimer and declaration.

I moved to this area because I wanted a peaceful and life in a cool climate.

I was attracted by the natural environment especially the wild river gorges. I object to this project because of its impact on the gorge area, especially the threatened species.

- I also object to the project because of its potential impact on firefighting.
- I also object on the grounds that the impact on our small town will be immense. Traffic will be impossible in the years of building and resources in the town stretched to breaking point.
- The lack of adequate legislation to protect landowners at the end of the project is also of great concern
