I **OBJECT** to the Winterbourne Wind Farm development.

- I declare that I have not made any reportable political donations in the previous two years.
- I acknowledge and accept the Department's disclaimer and declaration.

The reason for my position stated above is:

My name is Anna Lisle- Turner. I live in Sydney but my mum has lived in Walcha for the past 42 years. I visit her regularly, with my husband and our 3 children. It is such a joy to leave the built up residential and industrial areas of Sydney to visit the beautiful countryside of Walcha. The children especially love and enjoy getting to know about the rural lifestyle that I grew up with. I have wonderful memories from my childhood of rural Walcha.

I have travelled extensively with my husband and we believe that Walcha is as truly beautiful as many parts of the world. The country around Walcha, with its views, gorges, waterfalls and pristine national parks, is what draws visitors from all over the world. The land in and around Walcha is some of the most beautiful and productive land in NSW and Australia.

The development of the Winterbourne Wind Project will have a devastating impact on the Walcha township and its surrounding area. There will be no economic benefit to Walcha businesses.

I have family in Holland, so I am well aware of the impact of wind turbines, both visually and economically, on rural areas.

I have seen the visual pollution caused by wind turbines. The health ramifications - dust pollution, carcinogenic issues with BPA, EMF's, blade flicker, and noise levels, are just some of the negative health effects of the wind turbines on the residents in and around Walcha.

The wind turbine project will destroy the township of Walcha, and this is not the Walcha that I want my children to get to know. I object strongly to the development of the Winterbourne Wind turbine project.

Kind regards,
