Director – Energy Assessments, Development Assessment  
Department of Planning and Environment  
Locked Bag 5022  
Parramatta NSW 2124

Reference: Winterbourne Wind Farm SSD - 10471

**I OBJECT to the Winterbourne Wind Farm development.**

- I declare that I have not made any reportable political donations in the previous two years
- I acknowledge and accept the Department's disclaimer and declaration.

I have lived at Walcha for about 56 years. I think it is the best place in the world. It is the best place in the world because of the people and the lifestyle and I have the time to appreciate everything around me, the green grass and the smell of the eucalypts.

I have supported the RSPCA for 40-50 years. The reason I oppose the Winterbourne Wind Farm is because of the effect I believe it is going to have on nature. All animals are going to be affected by this major change in the environment. I spend a lot of time thinking about all animals and creatures and I don't want to see them impacted by some person's activity that doesn't appreciate their beauty and significance. I don't believe the developers have any understanding of our area and environment.

I spend a lot of time looking at the clouds and understanding the different cloud forms. What are the turbines going to do to the atmosphere and the weather. Will they affect the formation of clouds and the rain patterns. This will affect all the creatures that have been here for so long and will hopefully continue to be here and increase in numbers.
