Planning and Assessment Department,  
Locked Bag 5022,  
PARRAMATTA 2124

Dear Sir,

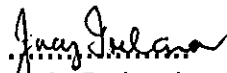

I wish to register my objection in the strongest terms to the proposed development of industrial wind farms in Walcha and the New England.

Aside from the lack of Consultation, errors, and environment damage, we are concerned about increased bushfire risk, the creation of no fly zones near rural airstrips and the negative impact of our water, and tourism.

Sincerely,

Denis Ireland

Judy Ireland
