Director – Energy Assessments, Development Assessment
Department of Planning and Environment
Locked Bag 5022
Parramatta NSW 2124

Reference: Winterbourne Wind Farm SSD - 10471

I OBJECT to the Winterbourne Wind Farm development.

- I declare that I have not made any reportable political donations in the previous two years
- I acknowledge and accept the Department's disclaimer and declaration.

Thank you for the opportunity to make a submission.

I think the industrial scale is inappropriate. Walcha is taking on the lion's share of the projects. We have many projects in the planning for our town. The number and size of the turbines is too big for our rural setting.

All the traffic will be coming past our property – from the north and the south. This is going to make it almost impossible for us to travel anywhere.

It would make more sense to put the turbines and wind farms where the electricity is required close to Sydney in vacant land there.

Vestas have not been open and honest with the community. The montages are not representative of the true picture. The state government have also not been open with the information they are providing.

Kind regards,

Name:
John Dickson
