Locked Bag 5022
Parramatta NSW 2124

Reference: Winterbourne Wind Farm SSD - 10471

I OBJECT to the Winterbourne Wind Farm development.

- I declare that I have not made any reportable political donations in the previous two years
- I acknowledge and accept the Department's disclaimer and declaration.

I object to the Winterbourne Farm for a number of reasons.

There has been no consultation. I did not know much about the project until recently and even now I am still learning about how close the turbines are to town and our property (6.5km) and how tall they are.

All the traffic for the project will be going past our house. The volume of traffic and trucks and the damage to the road is going to make travel anywhere for us almost impossible.

The Community Fund is not sufficient for the impact it is going to have on our community.

I am concerned about the wildlife with the project so close to the national park. There will be damage to the habitat of koalas and wildlife and the death of birds especially the Wedge-tailed eagles that live in the national park.

The transmission lines from the national park to the substation near Uralla are not suitable for this pastoral setting.

This project has already had 3 different owners. How can we have faith in the developers if they have already sold the project. Vestas aren't even going to be the company to build the project.

Kind regards,

Name:
