Letter of support for the Winterbourne Wind Farm (proposal ID SSD-10471).

---

The Winterbourne Wind Farm will bring work, people and money to the township of Walcha and surrounding areas. Local contractors will have opportunities to complete works related directly to the construction of the wind farm. Additional jobs will also be created to maintain the wind farms. In my opinion, this is an overwhelming positive outcome for everyone in Walcha as it provides greater sustainability to the workforce and the overall population of the town.
