

Letter of support for the Winterbourne Wind Farm (proposal ID SSD-10471).

- The Community Benefit Scheme which has been committed to be paid annually for the life of the project will give great opportunity for Walcha to Upgrade lots of its current infrastructure as well as go into many new developments for the community.
- The passive income earned by host landowners will help them to withstand our ever changing climate by helping with paying for fodder and extra costs during drought.
- It will be great for Australia's environment as we transition away from relying on COAL for power generation.
- It will have a very positive impact on the local economy with extra employment and spending at local business's.
