Letter of support for the Winterbourne Wind Farm (proposal ID SSD-10471).

---

I am writing to express my support for the proposed Winterbourne Wind Farm Project, to be constructed in the Walcha Local Government Area by developer Vestas. I believe this project will bring significant benefits to our community for the duration of its life.

First and foremost, the Winterbourne Wind Farm Project will provide a significant source of clean, renewable energy. This will not only reduce our dependence on fossil fuels, but also help to combat the effects of climate change.

In addition, the project will provide economic benefits to our community, including the creation of jobs during the construction phase and ongoing maintenance of the wind farm. This will help to boost the local economy and provide opportunities for residents. Furthermore, the project will also contribute to the development of the region, by providing funding for community projects and supporting local businesses. This will help to improve the overall quality of life for residents.

Overall, I believe that the Winterbourne Wind Farm Project is a positive and beneficial development for our community. I strongly support the construction of this project by Vestas and encourage others to do the same.
