I confirm the objection noted below is made by me.

My signature:  Date: 4TH December 2022

My objections to SSD-21208499 Glanmire Solar Farm are:

The solar proposal in my opinion is a complete misuse
of prime agricultural land that has been part of the
'bread basket' for NSW for the past 100+ years. Being part
of the wide treeless open plains discovered by Blaxland Wentworth
& Lawson in the early 1800's, agricultural pursuits were
possible from the word go. No need for massive clearing
exercise. This I'm sure is part of the reason for the current
increase. If less valuable agricultural land was to be used,
the irregularity of the land + vegetation would become a larger
issue. But surely, long term would be beneficial.
