I objecting to the Glanmire solar farm at 4823 Great Western Highway Glanmire 140ha of solar panels, 35+ inverters/transformers, security lighting and other infrastructure has the potentially to cause a hazardous distraction to Highway travellers.

In January 2022 there was a fatality at the intersection of Glanmire Lane, Brewongle Lane and Great Western Highway. The increase of 167+ vehicle movements during construction stage will cause this intersection to be very dangerous it is difficult to turn right out of Glanmire Lane onto the Highway already.

Elgin Energy has wasted a lot of time and money chasing the wrong location. This development at the Gateway to the Central West I say is the wrong location for a solar farm.

Robert Hawkey
