My objections to SSD-21208499 Glanmire Solar Farm are:

The proposed development is inconsistent with the current use of the land and will impact the surrounding area. The implementation of the solar farm will impact surrounding farms, lead to loss of income. Contractors will not undertake work due to fire risk and inability to secure insurance cover for immediately surrounding farms.

The size of the project is material, unusual and local planning, development history is being contradicted.

The state of NSW has declared Renewable Energy Zones for new solar plan. This development does not follow such recommendations.
