My objections to SSD-21208499 Glanmire Solar Farm are:

The proposed location is on excellent quality cultivation lands.

Several years ago, after several smaller land holdings / home had been allowed over Regional Plan 2014 limited land size per holding to 1.024 H.A. Since that time several quality homes have been built, several more are planned & all farmers are farming culturally rich plants, improving their property for their benefit & more importantly the benefit of the environment, the "green belt". The proposal is inconsistent with all of the above, it is certainly visually an unsavourable problem & extinguishes the opportunity for residence & productive rural produce for an unacceptable period of time.
