## SUBMISSION FOR SUPPORT

In making a submission to the Hills of Gold Wind Farm I have read the Key Project Truths Pamphlet sent by the Hills of Gold Preservation Inc.

In this some key points are made but there are benefits outlined and if this was a project that only affected Nundle I would have some concerns.

AS this project is a Major infrastructure in addressing the power requirements and the Australian commitment to the world Carbon output

I believe this Project to be a step forward to the future of Australians this will in no doubt upset some of the population and without the advantage of steps forward a large number of Nundle population in Nundle have no idea of the number of small changes that I have viewed in the past 50 years that I and the family have seen some with widely welcome, but all with some impact on the village and surrounding areas.

With this in mind I believe that this project will be a benefit to the people of Nundle and NSW and I fully support the project with careful Management to all the concerns that have been raised.

Signature

A handwritten signature in black ink, appearing to be 'G. V. 1992' or similar, written in a cursive style.
