SUBMISSION FOR SUPPORT

Apart from the needs & opinions of the Mundle Community I believe it is time Australians everywhere stop being selfish & accept that we need to move towards green power options throughout the country wherever they are tenable. Mundle has good winds for this purpose & is relatively close to the main transmission lines which is a big plus in these projects. So 'Mundle' should not be selfish in these matters. The Windfarm as I see it is not an option but a necessity for the community & the country. I have spoken to many farmers & landholders in my travels overseas & around Australia who have windmills on their property & all see it as a positive thing - especially in northern Europe which has a tradition of making decisions for the public good as the Mundle Windfarm will be. I hope to live long enough to see it in operation.
