## SUBMISSION FOR SUPPORT

I support the windfarm because it'll create jobs for rural workers as well as bring new people and jobs into this town.

The windfarm will create new money in this town, which will support small business and suppliers in rural infrastructure and businesses.

The drought has been had on small rural business. I am a fencing and rural maintenance business. I have been struggling through the drought. The opportunities that keep my business going are these outside large projects, eg: Chaffey Dam Upgrade x Pdungowan Pipeline project. The amount of work created by large developments are great ~~for~~ for the local economy, and great for the whole district.
