Gold Windfarm proposal ID no.SSD9679 SUBURB:

REASON FOR OBJECTION:

The idea of "green energy" at the expense of wildlife destruction makes no sense.

The villages of Nundle and Hanging Rock rely on tourism to survive. People travel to the region to take a step back in time to visit the old style shops, accomodation. To get back to nature, to enjoy the trees, to bushwalk, camp and prospect.

I believe the clearing of the scenic hills of Nundle to erect futuristic turbines with flashing lights will severely impact the attraction of tourists to our village. People that spend money and support the local businesses.

Both Nundle and Hanging Rock will be damaged by the initial logistics nightmare of transporting oversize and overmass trucks. The roads already cannot cope with the hundreds of logging truck movements per month.
